**TAG IT Services Selected To Support The Department of Veterans Affairs**

Dulles, Virginia – (February 10, 2004) – TAG (Technology Advancement Group, Inc.) IT Services announced that it is one of 36 companies awarded subcontracts with Computer Sciences Corporation (CSC) to compete for task orders under the Global Information Technology Support Services (GITSS) contract. The eight-year, \$3 billion indefinite-delivery/indefinite-quantity contract supports BuyIT.gov, the Department of Veterans Affairs' Federal acquisition center in Austin, Texas. CSC estimates the value of the agreement to CSC to be approximately \$200 million over eight years.

The GITSS contract enables government contracting officers with BuyIT.gov, and contracting officers whose agencies have franchise agreements with BuyIT.gov, to procure information technology (IT) and telecommunications support services.

Under the contract, TAG IT Services can provide IT and telecommunications solutions covering a broad range of technical services to the Department of Veterans Affairs and other Federal government agencies. These services include Information Assurance; Computer Systems Facilities Management and Maintenance; and Network and Operations Support including Help Desk/Management Support.

**About the Department of Veterans Affairs**

The Department of Veterans Affairs (VA) was established on March 15, 1989, succeeding the Veterans Administration. It is responsible for providing Federal benefits to veterans and their dependents. Headed by the Secretary of Veterans Affairs, VA is the largest non-DoD Government agency and operates nationwide programs for health care, financial assistance, and burial benefits.

Technology Advancement Group, Inc. (TAG) resolves our customers' IT challenges with world-class engineering, manufacturing and integration, and lifecycle management. TAG provides unmatched reliability for your C4ISR Systems through cost-effective turn-key solutions designed for any environment.
