TAG to Expand Dulles Headquarters' Engineering Development and Manufacturing Capabilities for Military and Government IT Solutions

Loudoun County-Based Facility Will Accelerate Defense Contractor's Production Capacity and Schedules

March 28, 2005 - Dulles, VA –TAG (Technology Advancement Group, Inc.), broke ground today on a new design and manufacturing facility that will maximize output of rugged, tactical hardware systems and enable the company to meet aggressive design and production schedules for upcoming military programs. The new 35,000+ sq. ft. facility will be located on TAG's 10 acre private campus and is planned to house the company's thermal, network, mechanical, and electrical engineering divisions as well as the manufacturing division.

The expanded Dulles corporate offices will continue to be home to TAG's Tactical and Information Solutions Groups, which provide the program-specific engineering results the military and government rely on to sustain information superiority and to support the efforts of our warfighters on the battlefield. The company also maintains a Pacific Rim sales office in San Diego, California.

John A. McEwan, TAG founder and Chairman of the Board, hosted an official ground breaking ceremony on the site. Contracting is being handled by Tucon Construction and is scheduled for completion in the 3rd Quarter of 2005.

Technology Advancement Group, Inc. (TAG) resolves our customers' IT challenges with world-class engineering, manufacturing and integration, and lifecycle management. TAG provides unmatched reliability for your C4ISR Systems through cost-effective turn-key solutions designed for any environment. For more information visit, www.tag.com or email at itarmor@tag.com.
